

I'm Umair Iqbal. As a skilled professional Flutter Engineer, I have been involved in a diverse range of projects, covering different aspects of software development, ranging from user interface design to complex backend functionality. With hands-on experience in Google Firebase services, API integration, Google Maps, Video and Audio players, I have worked on over 10 projects in various industries, including social, health, and medical care. My expertise and knowledge have allowed me to contribute to the successful completion of these projects, delivering high-quality results that meet or exceed the clients' expectations.

## **PROJECTS:**

**VFC — *Cleaning Services for your home***
